Volunteer Task Force:
We rely on a strong base of volunteers with a wide variety of skills and interests to keep our river clean and teach others about it!

https://www.riverraisin.org/volunteer

Our mission is to inspire behaviors that promote stewardship, improve water quality, and encourage public participation to protect, preserve, and enhance the River Raisin Watershed.

Get Involved!

Adopt-A-Stream
The River Raisin Watershed Council partners with Adrian College to put on our Adopt-A-Stream program. It consists of three events: Training Day, Stream Search and Bug I.D. Day. Volunteers from across the watershed work in teams to collect macroinvertebrates from twenty sites to learn about the water quality of each site. There are spring and fall collections each year.

Macroinvertebrates are indicators of water quality, meaning they can help us determine the health of the water. Some are more sensitive to pollutants than others, and we compare the number of tolerant types to the sensitive types. More information can be found at: www.riverraisin.org/adopt-a-stream

Discover the Raisin Award Program
Discover the Raisin Award Program debuted in 2016 to give teachers and students the opportunity to get outside to learn about the River Raisin watershed. Up to five applicants can be awarded. Applicants selected will be awarded $200 towards classroom materials. Eligibility and more details can be found at: www.riverraisin.org/discover-the-raisin

This program is made possible through a generous donation from ITC. Thanks ITC, for supporting STEAM (Science, Technology, Engineering, Arts and Math) education in our local schools.

Educational & Promotional Watershed Activities

River Raisin Watershed Council employees, council members, and volunteers of the River Raisin Watershed are more than happy to present to all ages in the watershed. We are provided with this wonderful natural resource, so let us share our knowledge with you!

Contact us if you would like us to share a presentation, including hands-on activities for all ages to your class, school, community, or meeting. We can present information on many different natural resource topics, so let us know what you’d like to learn about!

You can also volunteer to host a presentation to help spread the word about our River, the watershed, and how others can help partner, protect, and preserve our special natural resources!

Educational Resources Available

- River Raisin Watershed Maps
- Stormwater Model
- And MORE!

Contact us for more information, or find our booth at your local festival or fair booth!

Frequently Asked Questions

What does the Watershed Council do?

We work to educate the public and students about our watershed and water quality issues by presenting in schools and at different organization meetings. RRWC has many volunteer programs that rely on volunteers to keep the river healthy and monitor river health. We organize volunteer river clean-ups to remove trash and invasive species and also clear log jams to allow kayakers to enjoy more of the river!

Can I get resources (maps, research reports, activity books etc.)?

Yes! We are happy to provide educational activity books and maps for students and the general public. We can also lend any reports or books that we have to anyone interested. We can help teachers with curriculum needs and loan them items including a hands-on surface water model. We are also available for presentations on any subject related to water. Best of all, we provide this all for free!

Can I organize a clean-up in my area?

We can help you get started! Just let us know what areas need attention and we’ll help with equipment and volunteer-power.
